BAY ST. LOUIS, MISS., FRIDAY, JULY 3, 1953

Vol. 62, No. 1

Observations..

By UDELL

A dance for the benefit of the Cancer Fund will be held at the Lakeshore Civic Hall Saturday, July 4, at 7:00 p. m. All donations will be given to the Cancer Fund drive and in turn are used to further research on this dread disease. Your attendance at this dance will help many.

To the City Commissioners... Bookster street is a little better by St. Stanislaus since you repaired it, but it could still use some more repairs. But the garbage situation hasn't improved any... from past experience, we know that a lot of people don't care where they dump it.

The streets are often used for disposals... Can't you work out another plan where trash can be picked up at least three times a week in the summer... traffic on Third street, right in the business section gets dangerous at times... An officer should be stationed back here during the day to correct this hazard.

United Gas Company is featuring the Gulf Coast again this month in national publications such as TIME, NEWSWEEK, U. S. NEWS AND WORLD REPORT, BUSINESS WEEK AND WALL STREET JOURNAL... This is the third ad in the 1953 series, featuring various sections of the Gulf South, and is part of an industrial development program.

United Gas has been carrying on ever since 1939... The campaign undoubtedly has been of assistance in telling the advantages of our community and state to the industrialists of the nation... The ad is captioned MISSISSIPPI'S CHOICE LOCATION FOR INDUSTRIAL SUCCESS... They tell of the friendly people and cooperative government in the state and of the climate, working conditions, raw materials, electric power and natural gas fuel... They also list the communities supplied with natural gas from the pipe lines of United Gas, and Bay St. Louis is second at the head of the list.

The story on the bridge in Sunday's issue of the TIMES-PICAYUNE in the Dixie Ratio section, was quite interesting... amazing when you read how this bridge was floated across the Bay and put together.

Mrs. Martinolich Ties For First Place Honor

Mrs. Betty Drury Martinolich of St. John's Street, Bay St. Louis, Miss., tied with two other students for the honor of first place in her section during the Spring Quarter at the University of Tennessee College of Medicine in Memphis, according to grade average compiled by Miss Kate Stanley, registrar. She received her doctor of medicine degree at commencement exercises June 15.

Attend Camp

Fifty boys and girls, members of the Hancock County 4-H Club attended Shelby State Park, ten miles south of Hattiesburg.

They were accompanied by Miss Sarah Weaver, a number of mothers, County Agent Howard Simmons and Assistant Agent Barber.

Mrs. George Finster is visiting the John Sciana family.

Lucien Raymond III, has been transferred from Guam to Japan where he will be stationed for six months.

F. M. Rapier is home on vacation. The Rapiers had as their guests over the weekend, Mr. and Mrs. Resor of New Orleans.

Mrs. F. M. Rapier attended the reception held in New Orleans for her brother-in-law and sister, Mr. and Mrs. Ralph Hill.

Miss Bonnie Rapier is visiting in New Orleans.

Mr. and Mrs. Charles Johnson, of New Orleans are vacationing at their home on Robert street.

Mr. and Mrs. Morris Bougeois and Wesley Bougeois were weekend guests of Mr. and Mrs. Alfred Bougeois.

Master Eddie Collier has returned to his home in New Orleans after a week's visit with his cousin, Ronnie Favre.

Mr. and Mrs. Melvin Villere and Mr. and Mrs. D. Tucker spent Monday in New Orleans.

DON'T FORGET THE COUNTY-WIDE FOURTH OF JULY CELEBRATION SPONSORED BY THE CHAMBER OF COMMERCE, TO BE HELD ON THE CITY SAND BEACH BY THE HIGHWAY BRIDGE... GAMES... MUSIC... REFRESHMENTS... SPEAKING AND FIREWORKS... STARTS AT TWO O'CLOCK AND ENDS AT EIGHT O'CLOCK

Bishop Bowers Ordains Seminarians

The Rev. Hubert Singleton, S. V. D., and the Rev. Vance Thorne, S. V. D., were ordained to the priesthood Wednesday, June 24, at St. Augustine's Seminary, Bay St. Louis, Miss., by the Most Rev. Joseph O. Bowers, S. V. D., J. C. L., D. D., Bishop of Accra, West Africa, and an alumnus of the seminary, who was recently consecrated by His Eminence, Francis Cardinal Spellman. This is the 13th ordination conducted at the seminary - the first being in 1934.

Long before 8:30, the time for the ordination, St. Augustine's Chapel was crowded to the doors with relatives, friends and clergy and religious to witness the ordination. Many assembled as early as 7 o'clock in the morning coming from such distant points as Mobile, Lafayette, New Orleans and various towns along the Gulf Coast.

The Gregorian Chant and the Mass was sung by the Major Seminary choir.

Ordination ceremonies at St. Augustine's Seminary, opened with a solemn procession from the Faculty Building to the chapel, where the Pontifical Mass was to be celebrated. As the choir sang "Ecce Sacerdos," His Excellency entered the chapel and proceeded to the sanctuary. The Bishop then ascended the throne. Here his Excellency put on his pontifical robes in preparation for the Mass which followed immediately.

Following the vesting, the Bishop proceeded to the altar where the recommendations of the candidates for the priesthood were read, and the instructions given them as their duties. The lengthy ordination ceremonies followed at which the candidates were ordained priests. From that time on the newly ordained priests said the Mass in union with the Bishop.

At the completion of the whole ceremony, the two newly ordained priests ascended the altar and turned towards the people and gave them their first priestly blessing. With the recessional, the procession wended its way back to the Faculty Building where the new priests received the congratulations of the Bishop, priests, religious, parents, relatives and friends.

First Mass

On Thursday morning at 8:30 the newly ordained priests ascended the altar for the first time to celebrate their own Mass simultaneously. Before the Mass, the Rev. Francis Larkin of the Sacred Hearts Fathers from Washington, D. C., preached the sermon. During the first Mass the Rev. Hubert Singleton, S. V. D., was assisted by the Rev. Christian Baker, S. V. D., and the Rev. Vance Thorne, S. V. D., who was assisted by the Rev. Lawrence Freidel, S. V. D.

At the Mass each newly ordained gave Holy Communion to their parents, relatives and friends.

For the two-day celebration a banquet was tendered to the newly ordained attended by the Bishop, clergy, parents and relatives and friends.

Pope Sends Message

In the name of the Holy Father, Pope Pius XII a message of paternal devotion was sent by the Papal Secretary, on the occasion of the 13th ordination at St. Augustine's Seminary.

The Radio-gram read as follows: "Holy Father gladly imparts to newly ordained priests, and those attending the ordination his paternal and Apostolic Blessing."

Those ordained to the priesthood were: The Rev. Hubert Singleton, S. V. D., of Lake Charles, La., and the Rev. Vance Thorne, S. V. D., of Bath, North Carolina. Both young men entered St. Augustine's Seminary in 1940.

They finished their high school seminary course in 1944 and entered the Divine Word Novitiate at Techny, Illinois, in the fall of the same year. After pronouncing their first vows in 1946, the young men remained on at Techny for two more years to receive their college training. In 1948, they returned to St. Augustine's Seminary for their philosophical and theological courses. After ordination the new priests will study theology for another year before receiving their assignment.

This ordination will bring to 30 the number of priests ordained at St. Augustine's Seminary. Of these, one is a Bishop (The Most Rev. Joseph O. Bowers, S. V. D., of Accra, West Africa), 5 are working in the foreign mission, 13 are doing parish work in the United States, 4 are stationed at St. Augustine's Seminary; 2 are continuing their studies; and two are deceased. One was ordained for British Honduras.

Ordained

S. LANDRY KILLED IN HIGHWAY ACCIDENT

Otho Rester Elected To REA Board

Library Receives \$5 From New York

News of the Memorial Library Building has reached as far as New York City.

A check received today from Mrs. Betty Husband, a former resident of Bay St. Louis and a steady patron of the library made the Board realize how much this institution has meant to many in the years of its existence.

During the war years, for instance, it was a friendly oasis for the wives and children of the many servicemen stationed on the coast; and to the last two decades of school children, now graduated and spread to the far corners of the world, the memory of the library and of Miss Louise and Miss May must be a warm one.

Indeed, if it were possible to reach each of these people and tell them about the building fund, the goal would probably be reached overnight. But since this cannot be done, won't you, who are right on the spot, send your contributions in today?

The Bookmobile visited Bay St. Louis this past week and members of the State Extension Library Service who visited the new building Court street were pleased with the facilities which the library will offer the public after it opens some time in July.

Contributors for this week are:

Anonymous	\$25.00
Mr. and Mrs. W. W. Balter	5.00
Mrs. W. Weaver	2.00
Mrs. Betty Husband	5.00
Mr. and Mrs. Charles Greenhill	20.00
Dr. and Mrs. John Griffin	10.00

Attends Convention

Dr. Walter C. Russo, vice-president of the New Orleans Optometric Society, attended the Co-ordinated Classroom Institute at Mississippi Southern College this week.

He also attended the Louisiana State Convention of Optometrists in New Orleans on Sunday and Monday at the Jung Hotel.

At the institute, which was held June 29-30, Dr. D. Harmon, leader in the development of co-ordinated classrooms and a member of the staffs of some of the leading universities in the United States, spoke on such subjects as vision and learning, problems in classroom lighting, recent advances in lighting and light filtering and artificial lighting. He was assisted by Dr. Felix J. Underwood, Dr. William Gayle, Dr. Ralph Taiger, T. E. Naylor and Robert C. Jones.

Notice

Western Union will be open from 9:00 a. m. to 11:00 a. m. Saturday, July 4th only.

Cue Distributes New Shell Product

Gasoline with TCP (a cresyl compound), the new additive that gives cars more power and mileage was made available in this area on Tuesday, June 30th, and will be available at Shell stations throughout the country before the summer travel season reaches its peak, Emilio Cue, Shell Oil Company distributor said here today.

The new product, according to Cue, gives the average car up to 15 per cent more power, more mileage and 50 to 150 per cent longer life for spark plugs. It restores old, badly-operating plugs to top performance and virtually eliminates pre-ignition, a serious type of knocking.

Originally it was believed that nationwide distribution of TCP would not be possible until the end of August, Cue said. The company therefore introduced it late last month in 16 large cities where blending equipment was available. Demand has proved so great in these cities that nationwide distribution schedule has been stepped up over 200% by the addition of blending equipment at more terminals and bulk plants than originally planned.

Many motorists in test cities, Cue added, have reported noticeable improvement in the performance of their cars with the use of TCP-treated gasoline and have complained at being unable to buy it at all the company's stations when they were traveling.

TCP is the first gasoline additive to deliver improved engine performance without actually changing the characteristics of the gasoline, Cue pointed out. Instead, the chemical makes it possible for the engine to use the fuel more efficiently. It does this by preventing the spark plug deposits from causing short-circuits and consequent misfiring. It also has a chemical effect on deposits in the combustion chamber that cut down pre-ignition, one of the most serious types of knocking.

"To appreciate what this means to engine performance," Cue said, "try driving your car with one spark plug disconnected - one cylinder out of operation. The engine no longer runs smoothly, it has considerably less power, and you notice it. Actually, the same thing happens in most cars during ordinary driving, but you may not always notice it because the missing may occur intermittently and with different plugs at different times. Although an occasional misfire is not very noticeable to the driver, every time a cylinder

Sergeant Lloyd Shubert, who served with the Third Infantry, U. S. Army, was cited for meritorious service in connection with military operations against an armed enemy in Korea during the period of May 21 to February 29, 1953.

Sergeant Shubert served as a driver for his platoon and then for the company commander, performing his duties in a superior manner. According to the citation, presented Saturday, June 27, in ceremonies at the Courthouse, as the Commanding Officer's driver, his ingenuity and reliability were such that he was often entrusted to guide the entire unit or various platoons on night moves to assembly areas or fighting position. His intelligence, good judgment and complete dependability contributed to the efficiency of the company headquarters.

Sergeant Shubert's outstanding skill, initiative and untiring devotion to duty reflect great credit upon himself and the military services and the federal service from Mississippi.

Captain Alford of Gulfport presented the Sergeant, who is the son of Mr. and Mrs. Adolph Shubert of Hancock County, the commendation ribbon with metal pendant.

Leetown 4-H'er Goes To Minnesota

Joe Trash, 18 year old 4-H Club member from Leetown Community is one of the 27 delegates who will be "Grass Roots" ambassadors for Mississippi while they are in Minnesota during July.

Joe, who was selected on a competitive basis on his 4-H record has been a member eight years in Hancock County, during which time he served either as president or an officer of his local club. This past year, his senior year at Sellers School, he was president of the Sellers 4-H Club.

Joe has always shown outstanding leadership ability. In 1950 he was awarded an all-expense paid trip by United Gas Company to spend a week at Copiah-Lincoln Junior College studying leadership and recreation. That same summer he was selected as one of the three boys to attend the State 4-H Conservation School, an all expense paid trip sponsored by the Hancock Bank of Bay St. Louis.

One of the high-lights of Joe's activities during his 4-H years was helping with and acting as chairman of ceremonies of the Hancock County 4-H Rally held in the spring of 1953.

The bus, taking the group to Minnesota, a modern air conditioned Greyhound with luxury reclining seats, is being sponsored by the Craft's Food Company of Chicago.

The group will leave the Robert E. Lee Hotel in Jackson at 10:30 Monday morning, July 6. Stops will be made enroute, arriving around July 10. The boys and girls will be entertained both at the University in Saint Paul and in the homes. During part of the visit the boys and girls will live in the homes and get a first hand view of life on the farms and in the rural areas in Minnesota.

Sponsorship of \$50.00 per member was necessary in order for these young people to make the trip. This money is to be used to pay lodging on the trip up and back, and meals when not furnished in Minnesota. The Hancock Bank, Merchants Bank and Trust Company and Rural Electrification Company put up this money for Joe as his sponsors.

This exchange program, which was started in 1951, when a group went to Minnesota, has proven to be one of the best advertisements and selling points for the Magnolia State in long time. In the summer of 1952 the Minnesota 4-H Club Department returned the visit and now another group of Mississippians are going to Minnesota to tell the people of that area more about the Magnolia State and its opportunities.

WAVELAND NEWS

MISS C. TURCOTTE

Mrs. Marie De Fraites spent last week at her home here. Sgt. Alphonse Dorn, United States Marine Corps, and Pvt. Wesley Dorn, United States Army, sons of Mr. and Mrs. Alphonse Dorn Sr., have returned to Camp Lejeune, South Carolina, and Fort Stoneman, California, after spending furloughs with their parents.

Mr. and Mrs. Anthony Pagnon are spending some time at their home on Brown street. Mr. and Mrs. Ott Brockman and daughters of Laurel are visiting Mr. Brockman's parents, Mr. and Mrs. T. H. Brockman Sr.

Mrs. J. C. Boylan and niece, Miss Bridget McMahon are spending the summer at their home on Market street.

Mr. and Mrs. Jacob Schwander were week-end guests of Mr. and Mrs. Walter Turcotte.

Mr. and Mrs. Charles Richard were week-end guests of Mrs. Richard's mother, Mrs. T. J. Bourgeois Sr.

Congratulations to Grace Ann Bourgeois and Carol and Kathy La Nasa who participated in the Bay-Waveland Tennis Vanities of 1953 Sunday.

Mr. and Mrs. F. T. Penasci and daughter, Jerry, are spending the summer at their home on Beach Boulevard.

Don't forget the annual church fair of St. Claire's Catholic church will be held on Coleman Avenue, July 4 and 5.

Mr. and Mrs. Robert Dominny and children of Atlanta, Ga., will spend a month here with her parents, Mr. and Mrs. Eugene Mogabgab. Mr. and Mrs. Mogabgab Jr., of Thibodeaux, La., will be here for the weekend.

CLERMONT NEWS

By Mrs. J. G. Treutel

Cheryl Ming, daughter of Mr. and Mrs. H. Ming, celebrated her fifth birthday June 26, at her home on Forest street.

The table, decorated in green, pink and white, was centered with the green and white birthday cake. Ice cream, candy, cake and punch were served.

Prize winners for the games were Helene Finin, Wayne Peterson and J. G. Treutel Jr.

Attending the party were Wayne and Herbie Peterson, J. G. and Jimmy Treutel, Helene and Will Finin, Catherine, Claudia and Fayhe Ann Klein, Marshall and Jimmy Wilcox, Inabelle and Baby Usher, Yvonne and Marietta Schwartz, Kenny Hill, Ann Proctor, Speedy and Pee Wee Courree, Sharron Ladrer, Maria Peterson and Tommy Thomas.

Announce Games

Hugh O. Jones, general manager of radio stations WPCM AM and FM in Gulfport, reported today that there is tremendous interest in the Major League baseball games now being broadcast over WPCM AM and FM each night, with the "Old Scotchman," Gordon McLendon, at the mike. Mr. Jones advised that perfect reception of the games could be had in this area over WPCM FM, 101.5 on the FM dial. Games are broadcast each weekday night.

City Echoes

Mrs. Ruth Luderbach visited her daughter, Mrs. C. C. Lyle, in Houston for three weeks.

Mrs. S. J. Jones and children, Richard and Janet, spent the weekend with her parents, Mr. and Mrs. B. F. Farrelly.

Mr. and Mrs. Leo Leak and children of Columbia visited the James Fillingsworth last Thursday. Mrs. H. Nielsen, who is staying with her brother-in-law and sister, Mr. and Mrs. B. F. Farrelly, is visiting relatives in Turlock, Calif.

Captain Keith L. Trash and son, Steven, are spending two weeks with his mother, Mrs. Ruth Luderbach. Captain Trash is on his way to his new assignment at Langley Field, Va.

Retirement Realty To Open Offices Here

A new Real Estate Company is opening offices in Bay St. Louis at the Hi-Way Drive in Theatre on U. S. 90, which will be operated by Earl A. Cuevas who is moving to the coast from Yazoo City. Mr. Cuevas is no stranger to this community, having lived in Bay St. Louis during his early youth where he was graduated from St. Stanislaus College. He has been away from the South for many years having lived in California, Chicago, Detroit, New York and Washington, D. C. During this time he was engaged in advertising and promotion work and in Yazoo City he owned and operated a Photographic Studio.

Retirement Realty will have branches and associates in all the Coast Cities, in New Orleans and in many Northern cities.

Through these contacts people will be reached who are preparing to retire. They will be presented with the many advantages of the Gulf Coast region for retirement purposes, and Retirement Realty will work toward enabling them to put their plans into practice during the productive years of life rather than wait until retirement to do so. It is his manner they may acquire, and own either improved or unimproved property that will be ready for them when they reach the retirement age.

At present there are approximately 1,200,000 people in the U. S. who attain the age of 65 each year. In a recent survey made by the State of Florida in a northern city 84.4 percent of the people polled expressed a desire to retire to the Gulf Coast region. In a national survey 60% of the people polled expressed a similar desire.

SINGER SEWING MACHINE CO.

A bonded representative of Singer Sewing Machine Co., will be in Bay St. Louis and surrounding territory each Wednesday for sales, service, repairs and rentals of Sewing Machines and Vacuum Cleaners. For appointment, write or phone Mr. J. E. Geil, Singer Sewing Machine Co., Box 185, Gulfport, Miss., Phone 439, Gulfport, 1114ch.

NOTICE TO BIDDERS

The Hancock County School Board will receive sealed bids for Colored Transportation in the office of County Supt. of Education up to July 11, 1953, 10 A. M., on the following route:

To begin at Catahoula School, thence to Kiln Colored School, thence to Valena C. J. Jones. The Board reserves the right to reject any and all bids.

Done by the order of the Hancock County School Board this the 23rd day of June 1953.

Signed: E. E. BRELAND
Chairman of Hancock County School Board.

RETURN FROM ILLINOIS

Mr. and Mrs. John Hendricks and Mrs. Lucas Puchey Jr., returned to Rock Island, Ill. They left Bay St. Louis June 9, to visit Mr. Hendricks' mother, Mrs. Raymond Hendricks and family.

Mr. and Mrs. Hendricks returned to Bay St. Louis and Mrs. Puchey continued on to Chicago and to Eau Claire, Mich., where she visited her brother-in-law, Clois Fuchey, and family. She returned home Sunday, June 28.

JUNIORS TO MEET

The Bay-Waveland Yacht Club Juniors will meet Friday night at 7:30. Juniors are asked to bring their membership cards and dates.

An important business meeting with social activity following will be held.

Stanley Serpas and Mrs. C. G. Moreau entertained in honor of Alton Erwin, who is visiting relatives here, in New Orleans recently. Erwin is presently residing in Houston, Texas.

Miss Darling Normand spent the week in New Orleans visiting her grandmother, Mrs. J. V. Normand Sr.

Congressional Sidelights

Congressman Wm. M. Colmer

The first line of security for this nation is not battleships, jet planes nor guns but the solvency of the American dollar.

Somewhere along the line, therefore, we have got to consider how far we can go in aiding others without destroying our own economy and thereby becoming unable to help anybody, including ourselves. We owe the stupendous sum of \$267 billion. If we stopped deficit spending and began retiring the national debt at \$1 billion a year, it would take many more years than this country has been in existence to liquidate this obligation. It now costs more money to service the national debt than it was costing to operate the whole Federal Government when we first came to Congress.

And what bothers many of us here in Congress is that the end of deficit spending, of foreign aid, of huge defense expenditures, is still not in sight.

We have come to accept the prospect that for many years to come we will be forced to spend large sums in arming ourselves to counter the menace of Russian might. We have no choice there. But we are becoming more and more alarmed over the question of how long our economy can stand the further drain upon it in the form of foreign aid.

First there were aid to Greece and the Marshall Plan. The former saved Greece from becoming yet another victim of Communist aggression, and the Marshall Plan sparked the economic recovery of our allies in Europe. But that was not the end. Then came the mutual security program, basically a continuation of the Marshall Plan, the Point-4 Program for aiding backward areas to develop their own resources, the military aid program, etc., etc. On and on, year after year, with no cutoff date for bringing these annual appropriations to an end.

We were alarmed further when a completely new precedent was set last week in extending aid to Pakistan. The House voted not only to give Pakistan a hundred million dollars worth of surplus wheat, but over the strenuous objection of a number of us, approved a provision that the United States would deliver the wheat to Pakistan, transportation charges paid, at an added expense to the American taxpayer of about 20 million dollars. Admittedly, Pakistan has been our friend. Also, the wheat, which was surplus to our needs, will relieve an acute famine condition among the people of Pakistan. But there is a limit to the resources of the United States and to what it can do to aid its allies without imperilling its own economic stability.

Obviously, we must put the brakes on somewhere if America, the last haven of refuge of free peoples, is to be preserved.

Garden Club Meets In Clermont Harbor

Mrs. H. Russ entertained the Blue Jeans Garden Club, under the spreading oaks in her garden.

There were 20 members present and one guest Mrs. Hayden. Prayers for Peace were said by Mrs. Russ, and plans for the annual picnic were discussed; it is to take place in July the date to be announced.

The Blue Jeans will again put plants in the tubs at the head of Railroad avenue, Clermont. Mrs. Peterson is in charge of this project.

Mrs. M. Flemming is to have the August Meeting. Mrs. Landry moved that Mrs. Theresa Floyd be made an honorary member.

The flower judging was as follows: cultivated, Mrs. H. Burleigh; potted, Mrs. R. Landry; miniature, Mrs. Ben Peterson; wild, Mrs. A. G. Dantagnan; horticulture, Mrs. Peterson. The entrance prize was won by Mrs. Peterson.

County Agents Notes

PASTURES

The best way to have early fall grazing from oats, wheat or ryegrass is to plow or disc the land in early July and then every two or three weeks, go back and disc again.

When the seeds are planted in September they generally come up quickly and grow fast. Ryegrass will give early grazing if planted on a prepared fallowed seedbed.

July is a good month to take soil samples from areas that are to be limed this summer. Fertilized this fall or planted to winter grazing in the fall.

You cannot afford to guess at how much fertilizer to use. You might guess too little and again you might guess too much - either way you lose.

Take extra good care of that coastal Bermuda set out in the Spring. If it gets 16 to 18 inches high, cut hay from it so that it can really spread out and get a ground covering. After the first cutting, top-dress with 30 more pounds of nitrogen per acre.

If the coastal was set late, be sure that weeds and other grass do not choke it out before it gets established. Clip down the weeds and other grasses or cultivate.

Do not forget to clip your permanent pastures this month. Raise the mower blade five to six inches above the ground. Stacked pasture clippings make a good winter feed.

FARM STORAGE BINS

An air-tight farm storage bin is essential to good results from fumigants. Just as water will run out of holes and cracks in the floors, so the fumigant, which is heavier than air, will also run out the holes and cracks.

Fumes of liquid fumigants must completely fill the bin if the insects are to be destroyed. If the fumes can leak out of the bin, it will not be completely filled.

Parris Island, S. C.—Marine Private First Class George E. McArthur, 17, son of Mr. and Mrs. George W. McArthur, Pearl Harbor, Miss., was promoted to his present rank when he graduated from "Boot Camp" at this East Coast Marine Corps Recruit Depot.

During the past eight weeks of intensive training and as a result of field experience and classroom lectures, the new Marine has become well versed in such military subjects as precision drill, first aid, hygiene, and field tactics.

He climaxed his recruit training by winning the marksmanship medal on the rifle range when he fired a score of 195 out of a possible 250 during his weapons training.

In addition to firing the famed Garand Rifle for qualification he fired other infantry weapons such as the .45 calibre pistol, machine, and Browning Automatic Rifle. He also witnessed demonstration firing of the machine gun, mortar and flame thrower.

Before entering the Marines, he was employed as a deck hand. He attended Logtown Grammar school from which he was graduated.

Never fill the bin with grain any closer than six inches from the top. If you do, the fumes like waves on water will roll over the edge of the top of the bin off he bins, especially when the wind is blowing. Remember, never fill closer than six inches from the top and always level the grain off.

The fumes will destroy the insects in 24 hours. If the stored grain is to be used as planting seed, the bins should be aired out 48 hours after treatment.

Caution. Fumigants are dangerous. They must be carefully handled. Always read the directions on the label of the container.

BLISTER BEETLES

Blister beetles are in home gardens, field crops and summer grazing crops in many parts of the state. Watch out for these predators.

You can control them by spraying with a mixture of one-half cup of 50 percent DDT or methoxychlor wettable powder mixed with three gallons of water. Or you can dust them with five percent DDT, five percent methoxychlor, 20 percent Sabadilla, or cryolite - one part to two parts of flour or talc.

Blue Cross-Blue Shield Is Sweeping Mississippi

From 10 to 235,000 members in 5 short years is the remarkable achievement of the Mississippi Hospital and Medical Service, the Blue Cross-Blue Shield Plan for this State.

So rapid has been its progress that it has consistently led the entire nation percentage wise in enrollment gains. Blue Cross officials attribute this growth to the progressive nature of Mississippians in saving the vital problem of hospital care by wisely budgeting for their bills in advance.

Not to be overlooked is the outstanding support given by the Doctors, Hospitals, Farm Bureau and many business leaders who are strong advocates of this voluntary non-profit program.

Hancock Countians now have a chance to join during the period June 29 to July 13. The King's Daughters Hospital is sponsoring this drive which is held for two weeks each year.

—Mr. and Mrs. R. Bienvenue and son, Jerry, visited in Florida last week.

IN THE MATTER OF THE ESTATE OF DR. PETER FRANK

CIS. MURPHY, DECEASED, BY: MRS. CLAUDE LOUISE WENNER MURPHY, EXECUTRIX

Greatest Gasoline Development in 31 Years

TCP*, a Shell discovered additive, now blended into Shell Premium Gasoline, puts an end to greatest cause of power loss. Actually boosts power up to 15%, sparkplug life up to 150%, by counteracting the deposits on sparkplugs and in combustion chambers.

Though you may not realize it, the chances are that your engine is delivering far less than its original horsepower.

This is because, in the average engine, deposits constantly build up on sparkplugs and in combustion chambers. These deposits actually "short-circuit" your sparkplugs causing them to misfire. They may also cause pre-ignition of the combustion mixture—resulting in severe knock. This is especially true when accelerating, climbing hills, or driving on the open highway.

This condition exists in the majority of cars on the road today.

To overcome this condition, Shell Research discovered a fuel additive, TCP. Blended into Shell Premium Gasoline, TCP

stops the short-circuiting effects of the deposits on sparkplugs and controls pre-ignition of the combustion mixture. This means, for the average motorist, a power boost of up to 15%, an increase in sparkplug life of up to 150%, plus an increase in gasoline mileage!

Shell Premium with TCP is the most important advance in gasoline since the discovery of tetraethyl lead in 1922.

New and old engines benefit

If you have a new car, particularly one with a high-compression engine, Shell Premium with TCP is essential if you want it to keep on delivering its original power for the normal life of the sparkplugs. But high-compression or not, Shell Premium with

TCP keeps your engine working like new.

Owners of older cars also benefit. Even if your car has gone 30,000 miles or more, your engine can get back much of its original power by the use of Shell Premium with TCP.

Shell Premium with TCP quick to act

So rapidly does Shell Premium with TCP counteract the deposits on sparkplugs and in combustion chambers that you'll feel your engine's had a tune-up before you've finished the second tankful. You enjoy the new car pep again.

NOW IN YOUR TOWN but only at your Shell Dealer's

TCP was originally developed by Shell Research for aviation fuels and until now has been largely restricted to military aircraft.

Today, Shell Premium with TCP is available in this area, but only at Shell Dealer Stations.

NOTICE OF SPECIAL BOND
ELECTION
TOWN OF WAVELAND,
MISSISSIPPI.

NOTICE is hereby given to the
qualified electors of the Town of
Waveland, Mississippi, that a spe-
cial election will be held in said
Town on

Tuesday, the 14th day of July,
1953,

for the purpose of submitting to
the qualified electors of said Town

the following propositions, to-wit:

PROPOSITION NO. 1

Shall the Town of Waveland,
Mississippi, issue its waterworks
system revenue bonds in the max-
imum amount of One Hundred
Forty-Two Thousand (\$142,000.)
Dollars, for the purpose of pro-
viding funds with which to pay
the cost of constructing a water-
works system for said Town?

PROPOSITION NO. 2

Shall the Town of Waveland,
Mississippi issue its general obli-
gation waterworks system bonds
in the maximum amount of Sixty
Thousand (\$60,000) Dollars for the
purpose of providing funds with
which to pay the cost of construct-
ing a waterworks system for said
Town?

PROPOSITION NO. 3

Shall the Town of Waveland,
Mississippi, issue its natural gas
transmission and distribution sys-
tem revenue bonds in the maxi-
mum amount of Two Hundred
Twenty-Eight Thousand (\$228,-
000.) Dollars, for the purpose of
providing funds with which to
pay the cost of constructing a nat-
ural gas transmission and distri-
bution system for said Town?

PROPOSITION NO. 4

Shall the Town of Waveland,
Mississippi, issue its general obli-
gation natural gas transmission
and distribution system bonds in
the maximum amount of Forty-
Thousand (\$40,000.) Dollars, for
the purpose of providing funds
with which to pay the cost of con-
structing a natural gas transmis-
sion and distribution system for
said Town.

The said election will be held
at the Town Hall in the Town of
Waveland, Mississippi.

The polls of election will be op-
ened at eight o'clock in the morn-
ing, and shall be kept open until
six o'clock in the evening on the
aforesaid date, and said election
will be held and conducted, as far
as practicable, in accordance with
the laws regulating general elec-
tions in the State of Mississippi
and in the Town of Waveland.

All qualified electors of said
Town who are properly regis-
tered will be entitled to vote in the
said election.

By order of the Mayor and
Board of Aldermen of the Town
of Waveland, Mississippi this 16th
day of June, 1953.

MRS. H. K. HOLDERITH
Town Clerk.
(SEAL)
6/19/53/44.

ADVERTISEMENT FOR BIDS

STATE OF MISSISSIPPI

COUNTY OF HANCOCK

Notice is hereby given that the
Board of Supervisors of Hancock
County, Bay St. Louis, Mississippi,
will receive sealed bids until
10:00 o'clock A. M., Monday, July
6th, 1953, for the sale to Super-
visors Districts Two, Four and
Five of Hancock County, for the
following described road machin-
ery and equipment, to-wit:

One truck Mounted Dragline
equipped with a one-half yard
bucket and mounted on a heavy
duty tandem truck, complete with
pulle driver attachment with
twenty-five foot boom and five
foot boom extension.

In purchasing said equipment,
the Board intends to take advan-
tage of the provisions of House
Bill 260, Laws of Mississippi,
1950, and pay therefor in install-
ments, and when the amount of
the notes is determined, the Board

Mrs. Louis R. Wyman had as
their guests Sunday Mr. and Mrs.
V. Felton Cotton from New Or-
leans and Mrs. L. T. Alford of
Ponchatoula.

Catherine and Dominica Be-
nigno are visiting relatives in Chi-
cago.

Mr. and Mrs. Stanley Snider
of New Orleans, who have pur-
chased the Hefeld home on Leo-
pold road, are now spending the
weekends here. They plan to
make this their permanent home.

Bruce Favre and Sam Peter-
son spent last week vacationing in
Florida.

will thereupon receive bids for
the sale thereof.

Published by order of the Board
of date June 1st, 1953.
(SEAL) A. C. MITCHELL
Chancery Clerk.

The Arthur J. Chapmans spent
last week in New Orleans where
Miss Pat Chapman was a brides-
maid in the Landry-Higginbotham
wedding.

Rosalie and John Coward
left for Wyoming Monday morn-
ing. They will be away for a
month.

Mr. and Mrs. A. G. Danlag-
nar and daughters, Edie and Ju-
lie, left for New York Thursday.

Dick Chapman left for Don-
aldsonville, La., to spend a while.

County Agent's Notes

by HOWARD SIMMONS

POULTRY

Poultry prospects continued to be good. As of May 25 the storage holdings of shell eggs in 35 major storage cities was 58 percent below the 1948-52 average for that date.

Storage of frozen eggs was 30 percent below the 1948-52 average.

Storage holdings of frozen poultry in 35 major storage cities on May 25 were 30 percent below the 1948-52 average for that date. Broiler chick sales for May were one-fifth above the corresponding

dates last year.

Feed grain prices in early June were 13 percent below a year ago. Wholesale prices of feed-stuffs, mostly oilseed meals and grain milling by products averaged 20 percent below last year.

FARM AND HOME WEEK

Farm and Home Week is getting nearer all the time. Have you made plans yet to attend? Better not wait too long. Join the crowd. You can't afford to miss the 1953 Farm and Home Week at Mississippi State College.

Livestock Day, Wednesday, July 15th, offers an opportunity to young and old to show their skill in judging cattle. See if you are a better cattle, hog, sheep judge

than junior.

The judging contest is open to all. There will be no senior or junior contest. All will compete in the same contest.

Judging events will be held in the Animal Husbandry Service Building in the heart of the exhibits area for Farm and Home Week.

Do not forget the date—July 14-15-16 at Mississippi State College. Come on out and have the time of your your life.

COTTON INSECT CONTROL

Every square must be protected if late cotton is going to make a profitable yield.

As thirop host plants - oats, wheat, white Dutch clover, vetch and weeds are maturing, these insects are damaging seedling and older cotton. As added insurance it will pay to poison at least once cotton coming to a stand.

Examine older cotton. Thirop are destroying developing leaves at the terminal buds.

Hot weather, plus a large number of spider mites make young cotton an ideal shape for an early infestation of spider mites. Watch for these next to weed patches and dusty roads.

Boll worm eggs and larvae are showing up in some fields. Watch the last growing cotton for these.

Keep a close watch on squaring cotton for boll weevil damage.

COTTON

Side dressing cotton will pay on most south Mississippi soils. Generally the fertilizer applied at planting time plus side dressings will amount to around 75 pounds per acre of nitrogen.

Growers who used 500 pounds of 5-10-5 at planting time, only applied 25 pounds of nitrogen. To supply the needed amount of nitrogen, side dressing is the answer. It should be applied at the first plowing after chopping.

or as soon as the fields are relatively free from grass. It is best to plow under side dressing so that the material will be in moist soil. If a heavy rain follows, less will be lost in runoff. If anhydrous ammonia is used, it should be applied six inches to the side of the drill five to six inches deep. The field should be left unplowed for at least three days.

LETTERS

Below is printed a letter from Dr. A. L. Gray, State Epidemiologist, to Dr. C. M. Shipp, Health Department, concerning Immune Globulin Distribution.

After receiving our total supply of polio globulin for the year, we find that it will be impracticable to place a quantity in each county health department. If you have a case in your county, please call us or wire us for the quantity needed for the household contacts and we will send it to you promptly by the quickest transportation.

"For requests that are submitted for globulin please indicate whether it is polio globulin or measles globulin you desire, otherwise we cannot ship it until this question is answered."

"For some of the more populous counties and for some areas in which the given health officer serves two or more counties, we are sending a reserve supply of polio globulin to be distributed from the office in the town of residence of the health officer."

This is being done in order to have the globulin immediately available wherever it is possible. These counties which have not received polio globulin to date should make direct request to this office for contacts of each household in which a case of polio occurs, giving the amount needed based on 14 cc per pound of body weight. It will be shipped to you promptly for individual case situations.

"Please call to the attention of your physicians that both polio globulin and measles globulin can be made available for pregnant women directly exposed to either of these diseases whether they are in a household where the case occurs or not. The measles globulin should be used for contacts of both German and red measles. To secure the globulin for this purpose please have the physician prepare the globulin request form naming the case to which the pregnant woman was exposed, the

City Echoes

—Mrs. James Norman, Misses Darling and Linda Lee Norman and Emmett Norman motored to Winchester, Tenn. Emmett is attending Elklore Camp and Linda is at Camp Rucalake. En route they visited in Chattanooga, Lookout Mountains, Rock City, Wonder Cave and Ruby Falls. They returned Wednesday.

—Mrs. Joan Dematatis and daughters, Eleni and Dora, of Glendale, Calif., are visiting her mother, Mrs. Joseph O. Mauffray.

—Mrs. Theo Tudury left Sunday for Memphis where she will attend a polo workshop.

—Guests in the W. W. James home last weekend were Edwin Upton of Zazoo City; Bob Harris of Florida; Jan Holmes of Newton, Marcy Geneva Ingram of Yazoo City; and Bob Wesley of Poplarville. They were here for the Youth Conference in Biloxi Saturday night.

—H. C. Glover Jr., and Don spent Father's Day with his parents.

—Mrs. Clemence J. Chadwick, who was undergoing treatment at Hotel Dieu, is home and able to be up and around.

—Miss Jennie DeMentz of Hattiesburg visited Miss Nanette Arceneaux last week. Miss Arceneaux returned to her home with her Sunday to spend several days.

—Don't forget the church fair for St. Claire's Church, Waveland, July 4 and 5.

—Misses Marcelle and Julia Menou and Mrs. Agnes Staubsbury of Iota, La., left Monday following a visit with their brother-in-law and sister, Mr. and Mrs. E. J. Arceneaux Sr.

name of the disease, and the date of exposure. Care must be used in distributing globulin for this purpose so that it will be used only in those intimately exposed by direct association."

—Dr. and Mrs. Andrew K. Martinolich and son, Kenney, are spending several days with his parents.

—Mrs. Manuel Maurigi, who underwent a major operation at Baptist hospital, is improving.

—Mrs. F. M. Stapp of Wiggins is visiting her son and daughter-in-law, Mr. and Mrs. Walter Raush.

—Dr. and Mrs. Van Devender are guests of Mrs. Josie B. Olson.

—Mr. and Mrs. Schaeffer and family, Mr. and Mrs. Bob Brennan and Mrs. Hess are spending two weeks here.

—Mrs. Gracie Lou Gonzales and son, David, her niece Janie Zingle and John Osinach spent last weekend with Mr. and Mrs. Henry Osinach Jr., and family.

—Mr. and Mrs. Grady Ward and sons, Bruce and Jack, are visiting Mr. and Mrs. Ben Hille.

—Achille I. Picard has returned from Europe where he visited France, Germany, Italy and England on business.

BIRTHS

Mr. and Mrs. Sam Vernon, nee Helene Kergosien, of Earle, Arkansas, announce the birth of their fourth child and third daughter, Helene Denise, Thursday, June 11.

The baby is the granddaughter of Mr. and Mrs. Horace L. Kergosien of Bay St. Louis.

American Legion To Send 11 To Convention

The Clement R. Bontemps Post 139 will have a group of 11 delegates at the State Convention of the American Legion at Biloxi, July 6, 7, 8 and 9.

This is the greatest representation ever allowed Hancock County at such State Conventions. This large delegation is allowed because of the large membership of the local post.

Hancock County will be well represented by Legionnaires who have a great influence in Legion Affairs of the State of Mississippi.

The possibility of Bay St. Louis as a future American Legion site is not being overlooked by the delegates. Investigations of possible accommodations for visiting Legionnaires are being made.

LEGAL NOTICE

Pursuant to ordinance adopted on June 22nd, 1953, by the Mayor and Board of Commissioners of the City of Bay Saint Louis, Mississippi, legal notice is hereby given to all citizens, taxpayers, property owners and other parties in interest, of a public meeting to be held by said Mayor and Board of Commissioners at ten o'clock a. m. on August 3rd 1953, to hear and consider any and all objections, if any, with reference to the regulations and restrictions contained in the said ordinance, a copy of which is hereinafter set forth, and of any objections to said Mayor and Board of Commissioners putting said ordinance and regulations and restrictions therein contained into effect under the authority of Title 16 of the Mississippi Code of 1952, and acts amendatory thereof; notice is hereby given that the Mayor and Board of Commissioners of the City of Bay Saint Louis, Mississippi, propose to put the following ordinance and regulations and restrictions therein contained into effect, and that prior to the same becoming effective at the above meeting, the said Mayor and Board of Commissioners will hear any and all objections with reference to the

regulations and restrictions contained and set forth in said ordinance; the provisions of said ordinance, restrictions and regulations being as follows:

ORDINANCE NO. 133

An Ordinance of the City of Bay Saint Louis, Mississippi to prohibit the erection or construction of any filling station, tourist camp, or any building or structure to be used for any business, trade, industry, or commerce, and prohibiting the conduct of any such business, trade, industry, or commerce in any building or structure so constructed. And prohibiting the placing, erection or construction of any sign, billboard or poster (except for rent or for sale, and/or the construction and erection by the City of Bay Saint Louis of any sign, which advertises the said City) and prohibiting the operation for tourists, transients or the public generally, directly or indirectly, a parking space for hire, in the area within said City described as follows:

Beginning at the point where a continuation of the line between Lots Nos. 391 and 436 of the First Ward of the City of Bay Saint intersects the first channel from the West shore of the Bay of Saint

Louis; running thence N. 70 degrees W. to the North East corner of Lot No. 1 of Beach Front Subdivision, said lot being owned by Geraldine Ames et al.; thence

Southerly along the western line of Front Street or North Boulevard to the northern line of deMontuzin Avenue; thence Westerly along said line of said Avenue to the eastern line of Second St., thence northerly along the eastern line of Second street to a point 100 feet North of the Northern line of U.S. Highway 90, now under construction; thence in a westerly direction along a line parallel with the said northern boundary of the said highway right of way, to a point 1000 feet distant from Front Street or North Beach Boulevard, measured at right angles to said street or boulevard; thence northerly and westerly, parallel to and always 1000 feet from said Front Street or North Beach Boulevard, to the corporation line of the City of Bay Saint Louis, being the range line between Ranges 14 and 15 West; thence North along said range line in the first channel in the Bay of Saint Louis; thence following said channel, easterly and southerly, to the place of beginning, (excepting therefrom the land lying between a line 130

feet North of the north margin of Ulman Avenue and a line 127 feet south of the south margin of Ulman Avenue.)

SECTION 1: Be it Ordained by the Mayor and Board of Commissioners of the City of Bay Saint Louis, Mississippi, That said Mayor and Board of Commissioners do hereby enact and give force to the following ordinance, to-wit: That the Mayor and Board of Commissioners constitute the legislative body of said municipality and are empowered under the provisions of the Laws of Mississippi, including Title 16, of the Mississippi Code of 1952, to regulate the height, numbers of stories and size of buildings and other structures; the percentage of lot that may be occupied; the size of yards, courts and other open spaces; the density of population and the location and use of buildings, structures and land for trade, industry, residence, or other purposes; and that it is necessary and to the best interest of the city in order to lessen congestion in the streets; to secure safety from fire, panic and other dangers; to provide adequate light and air; to prevent the over-crowding of land; to avoid

undue concentration of population; to facilitate the adequate provision of transportation, water, sewerage, schools, parks and other requirements, and having consideration, among other things, to the character of the district and its peculiar suitability for particular uses, and with a view to conserving the value of buildings and property, and encouraging the most appropriate use of land throughout such municipality; that the authority in said Mayor and Board of Commissioners under said laws of Mississippi, including Title 16 of the Mississippi Code of 1952, be exercised, and enforced as to the area within the corporate limits of said municipality hereinafter described and that the use and conditions of use and occupancy of land for trade, industry, residence, and other purposes within such area be regulated within said area.

The Mayor and Board of Commissioners further find and adjudge that the area hereinafter described is one of the two largest and most exclusive residential sections of the City of Bay Saint Louis; that a new highway bridge across the Bay of Saint Louis (which forms part of U.S. Highway No. 90, the most important highway serving said city), is being constructed

in said area at a new location and it has come to the attention of the Mayor and Board of Commissioners that certain persons are planning to build and operate commercial ventures in said area, which if permitted, will be highly detrimental to the best interests of said city, and especially of the area hereinafter described. The Mayor and Board of Commissioners further find and adjudge that the adoption of a comprehensive zoning ordinance for all said city is under consideration; by said Mayor and Board of Commissioners but considerable delay must necessarily be incurred before the same can be finally enacted, and that if the zoning regulations contained in this ordinance are not adopted and enforced in the said described area before said complete zoning ordinance can be finally adopted the said objectionable commercial ventures will become established therein and irreparable damage will result therefrom, and for that reason and the other reasons recited herein, this ordinance should be adopted and enforced without delay.

SECTION 2: That it shall be unlawful, upon any lot or piece of ground within the boundaries of the area hereinafter set forth, to erect, construct, reconstruct, or to enlarge any filling station, tourist camp, or any building or structure to be used for any business, trade, industry, or commerce or to conduct any such business, trade, industry, or commerce in any building or structure so constructed; or to place, erect or construct, or cause to be placed, erected or constructed, any sign, billboard or poster (except for rent or for sale signs; and/or the construction and erection by the City of Bay Saint Louis of any sign, which advertises the said City) and prohibiting the operation for tourists, transients or the public generally, directly or indirectly, a parking space for hire, in the area within said City described as follows:

Beginning at the point where a continuation of the line between Lots Nos. 391 and 436 of the First Ward of the City of Bay Saint intersects the first channel from the West shore of the Bay of Saint Louis; running thence N. 70 degrees W. to the North East corner of Lot No. 1 of Beach Front Subdivision, said lot being owned by Geraldine Ames et al.; thence Southerly along the western line of Front Street or North Boulevard to the northern line of deMontuzin Avenue; thence Westerly along said line of said Avenue to the eastern line of Second Street; thence northerly along the eastern line of Second Street to a point 100 feet North of the Northern line of U.S. Highway 90, now under construction; thence in a westerly direction, along a line parallel with the said northern boundary of the said highway right of way, to a point 1000 feet distant from Front Street or North Beach Boulevard, measured at right angles to said street or boulevard; thence northerly and north-westerly, parallel to and always 1000 feet from said Front Street or North Beach Boulevard, to the corporation line of the City of Bay Saint Louis, being the range line between Ranges 14 and 15 West; thence North along said range line to the first channel in the Bay of Saint Louis; thence following said channel, easterly and southerly, to the place of beginning, (excepting therefrom the land lying between a line 130 feet North of the north margin of Ulman Avenue and a line 127 feet south of the south margin of Ulman Avenue.)

No tourist cottages shall be erected, constructed or operated in said district, and in no case shall any tourist cottage or cottages be erected in said district, where any other business is conducted or operated in connection therewith; no building or structure shall be erected or constructed in said district for business, trade, industry or commerce, nor shall any business, trade, industry or commercial undertaking of any kind or character be conducted at any place within said district, between the east margin of Beach Boulevard or Front Street and the water's edge of the Bay of Saint Louis or in the Bay of Saint Louis, opposite said area.

SECTION 3: That in the area, above described, no building or premises shall be used and no building shall be hereafter erected or structurally altered, unless otherwise provided in this ordinance, except of the one or more of the following uses:

1: One-family dwellings.
2: Two-family dwellings.
3: Apartment Houses, where no other business is operated in connection therewith.
4: Boarding Houses.
5: Schools.
6: Churches.
7: Libraries.
8: Farming and Truck Gardening.
9: Accessory buildings, including one private garage, or private stable when located not less than 60 feet from the front lot line, or a private garage in a (fireproof) compartment as a part of the main building.
10: Private homes wherein rooms and home accommodations are made available to paying guests.

INCIDENTAL USE TO RESIDENCE:
SECTION 4: Uses customary incident to any of the above uses when located on the same lot and not involving the conduct of a

business; including also home occupations engaged in by the occupants of a dwelling not involving the conduct of a business on the premises, and including also the office of a physician, surgeon, dentist, musician or artist, when situated in the same dwelling used by such physician, surgeon, dentist, musician or artist as his or her private dwelling; provided no name plate exceeding one (1) square foot in area containing the name and occupation of the occupant of the premises, nor a sign exceeding eight (8) square feet in area pertaining to the lease, hire or sale of a building or premises, or advertising any apartment house, boarding house, or any other accommodation authorized and permitted in said district nor advertising sign of any other character shall be permitted in said district, described in SECTION 2 of this ordinance.

PRESENT USE TO CONTINUE:
SECTION 5: BE IT FURTHER ORDAINED, that the lawful use of land existing at the time of adoption of this ordinance, although such use does not conform to the provisions hereof, may be continued, but if such non-conforming use is discontinued for a period of twenty-four (24) consecutive months, any future use of said premises shall be in conformity with the provisions of this ordinance, provided, however, destruction of any building or buildings in which a non-conforming use is conducted of any building or buildings in which a non-conforming use is conducted by fire, storm, or similar casualty shall not constitute an abandonment.

The lawful use of a building existing at the time of the adoption of this ordinance may be continued, although such use does not conform with provisions hereof, and such use may be extended throughout the building and grounds. Whenever a use district shall be hereafter changed, any then existing non-conforming use in such changed district may be continued or changed to a use permitted in the same use district as that in which he existing use is permitted, provided all other regulations governing the new use are complied with, and the use of a building conforming use of a building has been changed to a more restricted use or to a conforming use, for a period of twenty-four (24) consecutive months, such use shall not thereafter be changed to a less restricted use.

APPLICATION FOR PERMIT:
SECTION 6: That the Mayor and Board of Commissioners shall pass upon all applications for permits, on all matters under this zoning act, and they shall pass upon plans and specifications relating to the use and the applied for use of said property.

NO BUILDING ALTERED WITHOUT PERMIT:
SECTION 7: That no building hereafter erected or altered shall be used or changed in use until a certificate of occupancy and compliance shall have been issued by the Mayor and Board of Commissioners, stating that the building or proposed use of a building or premises, complies with all the building and health laws and ordinances and with the provisions of these regulations.

Certificates of occupancy, and compliance shall be applied for on building permit and shall be issued within ten (10) days after the erection or structural alteration of such building shall have been completed in conformity with the provisions of these regulations. A record of all certificates shall be kept on file in the office of the City Clerk, and copies shall be furnished, on request, to any person having a building affected. No fee shall be charged for an original certificate, but for copies of any original certificate there shall be a charge of fifty cents each.

No permit for excavation for any building shall be issued before application has been made for certificate of occupancy and compliance. The use of no building already erected at the passage of this ordinance shall be changed from one class of use to another unless and until a certificate of occupancy and compliance with the provisions of this ordinance shall have been obtained from the Mayor and Board of Commissioners.

APPLICATION TO BE ACCOMPANIED BY SKETCH:
SECTION 8: BE IT FURTHER ORDAINED, that all applications for building permits shall be accompanied by a sketch in duplicate showing the actual dimensions of the lot to be built upon, and a copy of the plans and specifications of the building or buildings to be erected, the size of the building to be erected, and such other information as may be necessary to provide for the enforcement of these regulations. A careful record of such applications and plans shall be kept in the office of the City Clerk. No yard, court or other open space provided about any building for the purpose of complying with the provisions of these regulations shall again be used as a yard, court or other open space for another building.

PURPOSE OF REGULATIONS:
SECTION 9: That in interpreting and applying the provisions of this ordinance, they shall be held to be in the minimum requirements for the promotion of the public safety, health, convenience, comfort, prosperity and

general welfare. It is not intended by this ordinance to interfere with or abrogate or annul any agreements, covenants or other agreements between parties; provided, however, that where this ordinance imposes a greater restriction upon the use of building or premises than are imposed or required by other ordinances, rules, regulations or permits, or by easements, covenants or agreements, the provisions of this ordinance shall control.

PENALTY:
SECTION 10: That any person, firm or corporation who violates, disobeys, omits, neglects or refuses to comply with or who resists the enforcement of any of the provisions of this ordinance shall be fined not less than five (5) dollars or more than one hundred (100) dollars for each offense, or imprisonment in jail for thirty (30) days or by both such fine and imprisonment each day that a violation is permitted to exist shall constitute a separate offense, in addition to which the owner or owners of any property in said district shall have the right to restrain such violation by injunction.

SAVING CLAUSE:
SECTION 11: That should any section, clause or provision of this ordinance be declared by the Mayor and Board of Commissioners to be invalid, the same shall not effect the validity of the ordinance as a whole or any part thereof, other than the part so declared to be invalid.

MAYOR AND BOARD OF COMMISSIONERS MAY AMEND:
SECTION 12: That the regulations, restrictions and boundaries of the district as fixed herein, may be amended, supplemented, changed, modified or repealed, from time to time, by ordinance, adopted by the Mayor and Board of Commissioners.

Any proposed amendment shall be filed with the City Clerk and referred by him to the Mayor and Board of Commissioners. A public hearing shall be held by the Mayor and Board of Commissioners before any adoption of any amendment, supplement or change, notice of which hearing shall be given by publishing same in three (3) weekly issues of a newspaper published in the City of Bay Saint Louis, stating the time and place of such hearing, to be not earlier than fifteen (15) days from the date of such publication.

In case, however, of a protest against such change signed by the owners of twenty (20) per centum or more of the area of the lots included in such proposed change, or of those immediately adjacent to the rear thereof, extending 60 feet from the street frontage of such opposite lots, such amendment shall not become effective except by the favorable vote of two-thirds (2/3) of all the members of the Board of Commissioners. Provided, further, that the owner of any property within the areas described in this section shall have the right to appeal from any ruling of the Mayor and Board of Commissioners in effecting and such change, amendment, modification or repeal which appeal shall be taken in the manner provided in Section 13 of this ordinance.

RIGHT TO APPEAL:
SECTION 13: That a person aggrieved of any finding of the Mayor and Board of Commissioners in administering this ordinance, shall have a right of appeal from the findings of said Mayor and Board of Commissioners, in the manner provided for in Section 1195 of the Mississippi Code of 1942.

CITY CLERK TO GIVE NOTICE:
SECTION 14: That the City Clerk of the City of Bay Saint Louis, be and he is hereby required to give notice to the property owner of the proposed ordinance of the Mayor and Board of Commissioners of the City of Bay Saint Louis, proposed to put the foregoing ordinance, and the regulations and restrictions therein contained into effect, and that prior to the same becoming effective, the said Mayor and Board of Commissioners will hear any and all objections with reference to the regulations and restrictions as contained and set forth in this ordinance at a public meeting to be held in the City Hall of Bay Saint Louis, at 10 o'clock, A. M., on August 3rd, 1953, and that at such hearing the said Mayor and Board of Commissioners may exercise the right to eliminate a part or parts of the area embraced within the district described in Section 2 hereof, and to put such regulations and restrictions into effect as to the remaining part or parts of such district.

SECTION 15: BE IT FURTHER ORDAINED, that all ordinances or parts of ordinances, in conflict with any of the provisions hereof, and the same are hereby repealed, and the public necessity requiring it, for reasons brought to the attention of the Mayor and Board of Commissioners, including the reasons stated herein, that this ordinance take effect and be in force from and after its passage.

The foregoing ordinance of the City of Bay Saint Louis, Mississippi, was read and considered by sections and on motions made by Mayor W. J. Carver, seconded by Commissioner J. Cyril Glover, each of said sections were separately approved, ordained and (Continued on Classified page)

Power Company Plant Sweatt

The second 58,000 generating unit at Plant Sweatt went into operation Tuesday. The unit was announced by the president of the company, located near Mobile, has a capacity of 110 power and can generate 2,000,000 kilowatts of electricity per day.

Mr. Sweatt said the few days the second unit operated at about one-half normal balance adjustment made on the generator. Although this is a small amount of machinery it requires balancing and adjusting fine watch. Upon completion adjustments hydrogen into the generator as agent and the unit was operated at full capacity.

Plant Sweatt generating city at 13,800 volts stepped up to 110,000 volt substation for transmission to distribution load centers. The voltage is reduced to 11,000 volts for homes, farms, businesses and industries of southeast Alabama. All communities served by the company are connected to Sweatt through a high interconnected transmission system.

Work was started on the unit at Plant Sweatt in 1949 and this unit was placed in full load operation on June 15, that time Mr. Sweatt plans for the second construction started about months later.

In addition to the unit it was necessary to install another cooling tower as well as additional deep wells are approximately 100 feet deep. The cooling tower is, in effect, a conservatory since it allows the heat to be used again and again.

The tremendous, highly efficient Plant Sweatt, over 25 million cubic feet of steam enters the turbine at a rate of 850 pounds per square foot. After it has passed through the turbine, its heat is immediately 100 degrees. Only passage it has rotated the turbine at a speed of 3600 revolutions per minute.

In discussing the plant, Sweatt pointed out the plans for planning years ahead. For example, he stated that the commitment, with the manual for the generator for the unit was made approximately three years ago. Approximately 130,000 man hours of labor were spent in the construction of the two units at Sweatt.

Completion of this unit, the generating capacity is since early 1945 by the Power Company to 206,000 power. At the same time, transmission and distribution facilities have also been added at a rapid rate.

Rev. and Mrs. C. C. Jackson were week-end guests at the home of Dr. and Mrs. James A. Rev. Clark preached at the odish church Sunday morning. Formerly served here as pastor. Mrs. A. C. Enkleas and Josephine Miller have returned from a Holmes tour to New Orleans is visiting Mr. and Mrs. Chris Hoefeld.

Power Company Doubles Plant Sweat Capacity

The second 50,000 horsepower generating unit at Plant Sweat went into operation this week, it was announced by L. F. Sweat, president of the company. This plant, located near Meridian, now has a capacity of 110,000 horsepower and can generate approximately 2,000,000 kilowatt-hours of electricity per day.

Mr. Sweat said that for next few days the second unit will operate at about one-half capacity. This will be done so that it balance adjustments can be made on the generator rotor. Although this is a massive piece of machinery it requires as careful balancing and adjustment as a fine watch. Upon completion of adjustments hydrogen will be put into the generator as a cooling agent and the unit will be operated at full capacity.

Plant Sweat generates electricity at 13,800 volts and this is stepped up to 110,000 volts in the plant substation for transmission to distribution load centers, where the voltage is reduced for use in homes, farms, businesses and industries of southeast Mississippi. All communities served by the company are connected to Plant Sweat through a high voltage interconnected transmission network.

Work was started on the first unit at Plant Sweat in October, 1949 and this unit was completed and placed in full load commercial operation on June 15, 1951. At that time Mr. Sweat announced plans for the second unit and construction started about three months later.

In addition to the generating unit it was necessary to construct another cooling tower as well as to drill additional deep wells. These wells are approximately one thousand feet deep. The cooling tower is, in effect, a conservation measure since it allows the water to be used again and again with little loss.

The tremendous, highly efficient boiler of Plant Sweat, consumes over 25 million cubic feet of gas in a 24 hour period. Steam, heated to 900 degrees Fahrenheit, enters the turbine at a pressure of 850 pounds per square inch. After it has passed through the turbine, its heat is only approximately 100 degrees. During its passage it has rotated the generator at a speed of 3600 revolutions per minute.

In discussing the plant Mr. Sweat pointed out the necessity for planning years ahead. As one example, he stated that the commitment with the manufacturer, for the generator for the second unit was made approximately three years ago. Approximately 150,000 man days of labor, mostly skilled, went into the construction of the two units at Plant Sweat.

Completion of this unit brings the generating capacity installed since early 1945 by Mississippi Power Company to 200,000 horsepower. At the same time additional transmission and distribution facilities have also been added at a rapid rate.

—Rev. and Mrs. C. C. Clark and Miss Sara Frances Clark of Jackson were week-end guests of Dr. and Mrs. James A. Evans.

Rev. Clark preached at the Methodist church Sunday morning. He formerly served here as pastor.

—Mrs. A. C. Exonides and Miss Josephine Miller have returned from a Holmes tour to New York.

—Miss Erin Flanagan of New Orleans is visiting Mr. and Mrs. Chris Hoefel.

TO GIVE NOTICE: That the City of Bay Saint Louis is hereby notified to the proposition provided in Title Mississippi Code the Mayor and Commissioners of the Saint Louis, propose going ordinance, and restrictions into effect, and he same becoming said Mayor and Commissioners will hear sections with reference of the Mayor and Commissioners, including herein, that take effect and be and after its passage.

ordinance of the Saint Louis, Mississippi, considered by motions made by Mr. Cyril Glover, motions were separated and classified page)

Baptized Sunday

Carl Sheldon Ladner Jr., was christened on Sunday evening, June 26, at Our Lady of the Gulf Catholic Church by Rev. Father Hugh Taylor.

Sponsors were Miss Myra Peterson and Malvin Ladner.

Carl Jr. is the first grandchild of Asa Peterson, the ninth grandchild of Mayor and Mrs. Clifford Ladner and the first great-grandchild of Mr. and Mrs. August Schindler.

YC Club Juniors Elect

An election of the Bay-Wave Yacht Club Juniors was held recently with Keith Tonkel elected commander.

Doyle Loup was elected vice-commander to serve for the forthcoming year; Dorothy Larreux, secretary and Donald Cole Jr., treasurer.

The juniors are reminded that every Friday night is junior night at the Yacht Club and are urged to attend.

LWV Entertains at Tea

The League of Women Voters of Bay St. Louis entertained at a tea on the afternoon of June 25 at the home of Mrs. Paul Gaudet on North Beach.

The reception rooms were decorated with arrangements of pink and white oleanders, ferns and wild flowers.

Mrs. Gaudet received the guests and Mrs. E. P. Kirkpatrick and Mrs. William Hill alternated at the punch bowl.

Among those calling during the afternoon were Mrs. Joseph Scharf, Mrs. H. Oxenham, Mrs. Paul Loup, Mrs. Ernest Samuel, Mrs. W. W. Baltar Jr., Mrs. C. Newton, Mrs. Nellus Rhodes, Mrs. C. C. McDonald, Mrs. John McDonald, Mrs. Roger Sharp, of Pass Christian, Mrs. Paul Miller, Mrs. M. Firmin, Mrs. Chris Hoefel, Mrs. Charles Johnson, Mrs. G. Lehlener, Mrs. Gertrude Saucier, Mrs. Al Voight, Mrs. Rene deMontuzin, Mrs. Waldo Otis, Mrs. Archibald Bruff, Mrs. J. R. Rollins and many others.

—Mr. and Mrs. J. J. Kelleher Jr. and children, Joanne and Nancy, who have been visiting his parents, left for their home in Baltimore Sunday.

—Captain and Mrs. Harry Benjamin arrived last Thursday for a visit with her parents, Mr. and Mrs. Joseph diBenedetto. Mr. and Mrs. Dominic diBenedetto also spent several days here last week.

NOTICE TO CREDITORS

Estate of Mrs. Marie A. Saucier Deceased

Letters Testamentary of the Estate of Marie A. Saucier, deceased was granted to the undersigned by the Chancery Court of Hancock County, Mississippi, on the 30 day of June 1953, and therefore notice is hereby given requiring all persons having claims against said estate to present and have same probated and registered by the Clerk of said Court within six months from this date and failure to do so will bar the claim.

This the 30 day of June, 1953.
Mrs. Inez A. Favre, Executrix.

7/2/54.

Lucien Gex Jr. Taking USAF Training

Lucien M. Gex Jr., son of Mr. and Mrs. L. M. Gex Sr., of 224 N. Beach, Bay St. Louis, Miss., and a student at Tulane University arrived at Ellington Air Force Base, Texas, this week with 196 other Air Force ROTC students for one month of Summer Camp Training.

He will undergo physical training, visit various base facilities, listen to lectures on emergency equipment, navigational techniques, weapons and marksmanship, he will have flight briefing, drilling, retreat exercises, various orientations and many other things.

The training program is designed to give the students practical application of classroom theories and a greater comprehension of the workings of flying, military discipline and the Air Force.

Upon graduation from school he will be commissioned a second lieutenant in the U. S. Air Force.

—Mrs. Calvin M. Dyess and daughter of Prentiss, Miss., are visiting Mr. and Mrs. A. G. Dyess.

NEHI BOTTLING CO. GULFPORT, MISS.

CELEBRATES BIRTHDAY

Donna Ann Garriga, daughter of Mr. and Mrs. Lathan Garriga, celebrated her fourth birthday Tuesday, June 30, with a party at the home of her parents on Second street.

Michael Ryan and Leroy Luke won the prizes for the games played.

Balloons and candy were given as favors, and refreshments of cake and ice cream were served to the 30 guests attending.

—Mr. and Mrs. Pascal Caruso visited Mr. Caruso's father in Birmingham, Ala., recently.

—Misses Margaret Beyer, Anna Marie and Ina Piazza are visiting the James McDonalds in Norwalk, Ohio.

To Have Baby Day

Sunday, July 5, has been designated as baby day in the First Baptist church of Bay St. Louis, and all babies will be recognized.

Mrs. M. J. Necaise superintendent of the cradle roll will enroll all babies at birth if notified by the mothers.

The object of this is to tie the home in with the church and to emphasize the need of spiritual training in the home. Mothers are asked to bring their babies and participate in the services.

Hospital Board to Meet

The Kings Daughters hospital board will meet at the hospital at 10:00 a. m. Tuesday, July 7.

CARD OF THANKS

I want to extend my sincere thanks to everyone who helped me by purchasing ads and tickets for the recent dance revue.

Annette Ward.

Rosalie and John Cowand have arrived in Wyoming where they will spend a month in Casper and other points visiting relatives.

—Jan and Sandra Spiya of West Englewood, New Jersey, will arrive this week to visit their uncle and aunt, Mr. and Mrs. J. S. Blanchard, and family.

—Mr. and Mrs. Vincent Caruso and grandson will spend the next two weeks with his parents, Mr. and Mrs. Pascal Caruso.

—Mr. and Mrs. Walter Beniz have returned from a week's stay in Panama City, Florida, as the guests of Mr. and Mrs. George Thompson of Montgomery, Ala.

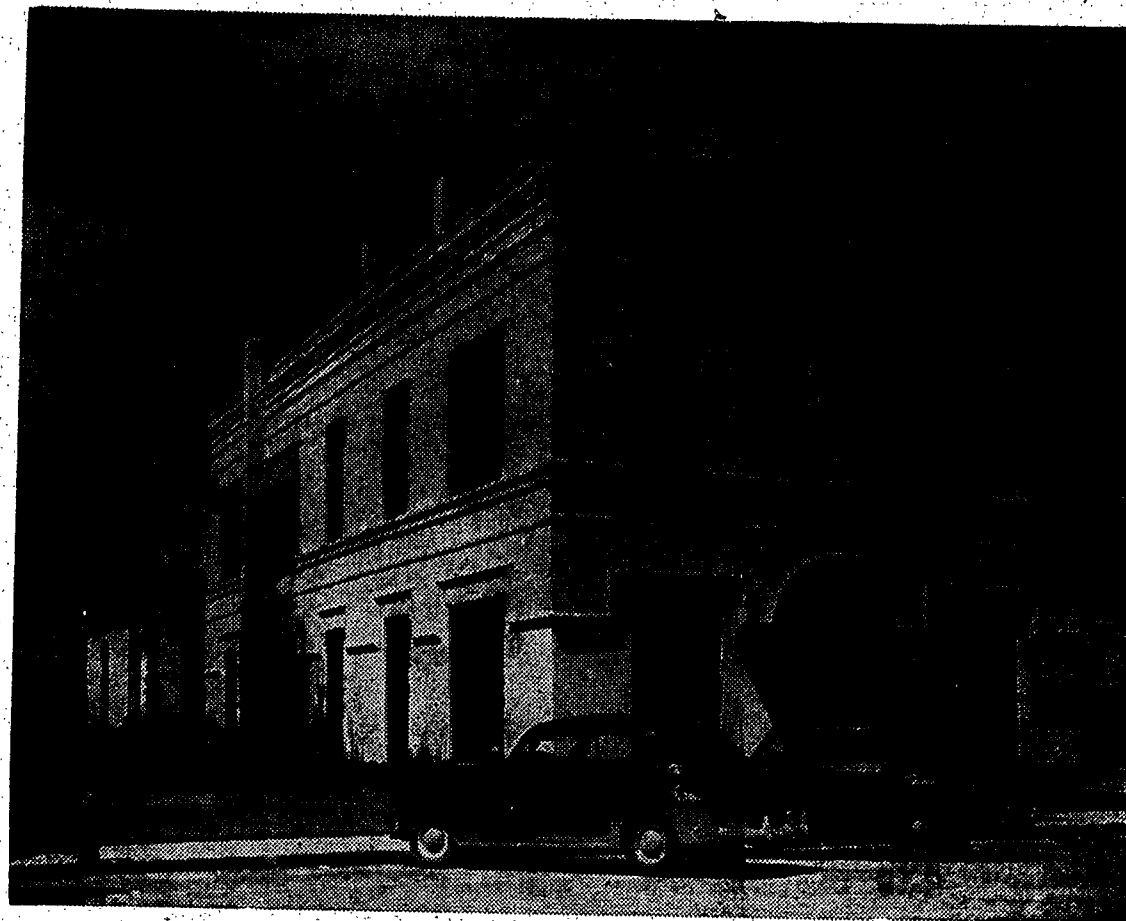

—The Reese Spangenberg have returned from New York where they spent ten days.

—Mrs. R. R. Sternwinder of New Orleans was a recent guest of Virdin.

Calf's Rope

As a matter of record every war we have fought resulted in high prices - called inflation. It happened in the War of 1812, the War Between the States, World War 1, World War 11 and in the Korean conflict.

Prices have skyrocketed beyond any peak of the past, and the value of the dollar has shrunk within a few years to one-half its former purchasing power.

Knowing that inflation can end in a bust, some effort is being made in Washington to stabilize our economy. Price controls were lifted and bridges taken off business. The administration has promised to balance the national budget and reduce taxes.

Any sensible person knows we could not go on indefinitely in the direction we have been moving, that some readjustment was essential if we were to maintain a sound dollar - if the people's life insurance, social security and bank savings were to be worth what they cost.

Whether the people are willing to make some sacrifice for the ultimate and common good has been questioned. We have depended so long on federal regimentation and government aid there are those who think we'll run to Washington as soon as the going gets rough - that we'll cry 'calf rope.'

None of us likes controls but we fear subsidies; we

resent high taxes but like federal relief. Probably the biggest problem that faces America is whether its sons and daughters will follow willingly any courageous leadership trying to bring order out of chaos and provide a sound economy - whether we can take it.

With wars and rumors of wars ours is an era of emergencies, and there is no reason to believe our immediate future lies along any primrose path to a promised land.

No president, no congress and no legislature can solve our problems, carry our burdens or lift us to higher ground. They may provide enlightened and courageous leadership, but the job ahead is for the rank and file and their cooperation. Only as we accept our personal responsibilities and give our willing support to constructive measures, can the nation go forward. Nothing is so much needed now as to be conditioned for sacrifice. This country wasn't built by quitters or pikers. We, too, need to be heroic.

The least we can do is to stand behind President Eisenhower and his patriotic helpers in every effort they make to reduce taxes, eliminate bureaucracy, restore a sound economy and foster the form of government provided by our Constitution.

MISSISSIPPI TOWNS DEMONSTRATE HOSPITALITY

Close to 120 Mississippi communities have taken an active part in the observance of "Hospitality Month" which is observed in June each year. Many of them are competing for awards in a state-wide "Community Travel Development Contest."

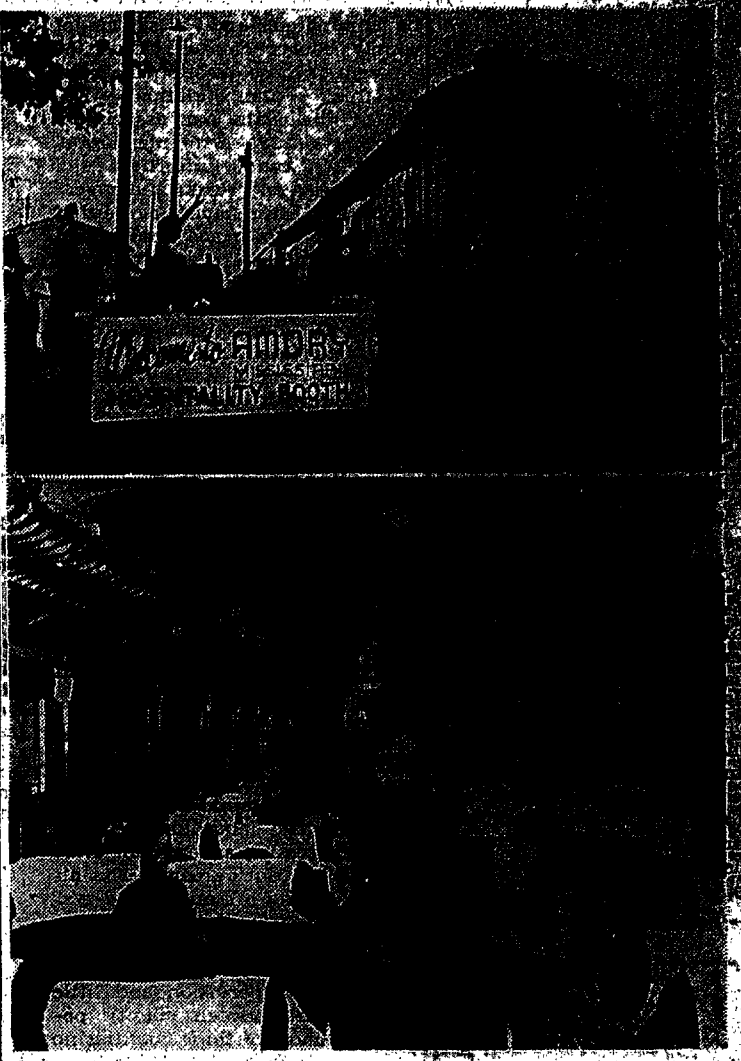

Here is a pictorial story of just a few of the activities of these communities.

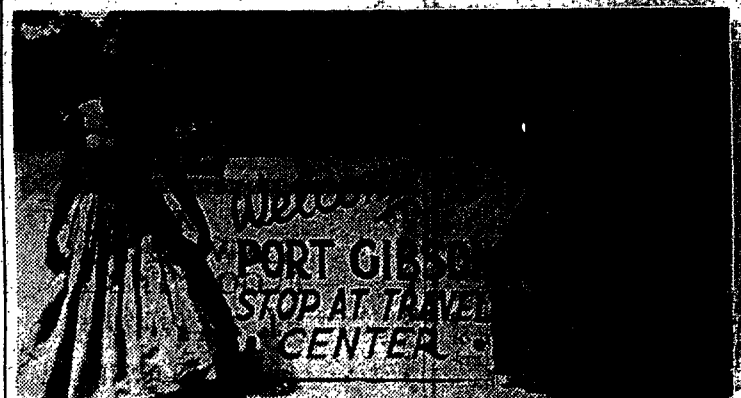

Holly Springs, North Mississippi Pilgrimage town, even went so far as to arrange for the marriage of a young couple at its Hospitality Booth. When W. H. Martin of Brownwood, Texas, and Miss Ramona Massey of Memphis stopped at the community's booth and indicated they wanted to get married arrangements were made, attendants were secured and the wedding ceremony was performed on the sidewalk in front of the booth.

Moss Point on the Gulf Coast also went all out, setting up a booth, welcoming signs, and serving refreshments and passing out souvenirs. Shown here is Mrs. Ann Avant, manager of the Chamber of Commerce, serving Miss Marjorie Nicholson and Mr. James Mullen, both of Pensacola.

Citizens of Amory in Northeast Mississippi not only stopped out-of-state cars, played host to selected guests, decorated both hotel and motel rooms with flowers, but even boarded incoming trains to serve refreshments and register travelers passing through their community. All but two merchants in the town contributed to the community program and almost every individual cooperated.

Port Gibson also went all out for welcome visitors. Shown here are Shirley Nelson, left, and Nellie Stamper beside a sign welcoming visitors to stop by the booth on U. S. Highway 61. Numerous souvenirs were given travelers who stopped.

We Are Now Open For Business And Ready To Sell All Types Of Property Both Improved And Unimproved

We will be glad to have listings from the property owners in Hancock County and Bay St. Louis.

We will be happy to work with other real estate operators on the usual basis.

It is our earnest desire to be able to render a valuable and needed service to this community.

We Hope that through the years the community may be bettered because of our presence.

(Continued from front page)
viewed people from all parts of the state. The fee system for salaries tends to encourage the employment of a minimum number of employees, with first loyalty to fee-collecting rather than law enforcement.

Also, the short-term nature of the sheriff's position makes the temptation to "sell out" to illegal interests very strong. In the words of the report, "the sheriff's office in many counties becomes a rich political plum to be squeezed dry in four years and thrown to the next lucky aspirant."

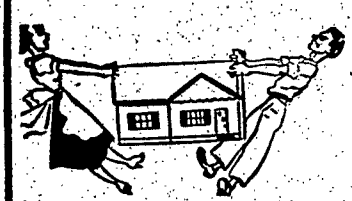

Second, the offices of justices of the peace and constables should be eliminated and a system of county courts created. Over 80 per cent of those questioned agreed to this recommendation. Recently, the state bar association made a similar recommendation.

Sheriffs, county attorneys and judges, chancery clerks and supervisors in most instances agree that justice of the peace courts and their constables are generally unnecessary expense; that they hinder law enforcement by interference with county and city officials; that they tend to be easily corrupted; and that they are often filled with unskilled and untrained persons.

Since justice of the peace courts operate on the "fee system" many think they are no cost to the general public. Scrutiny of circuit court records show innumerable cases appealed from "justice" courts and sent back for lack of evidence. This adds to county costs. Furthermore, some counties pay the costs for stationery and office supplies for the justices.

Third, a mandatory state-wide system of uniform police record keeping should be enacted, including a state criminal identification and scientific laboratory. Among those expressing an opinion, there was 100 per cent agreement on this point. Of the present record system, the report states:

"The complete vacuum of police records in Mississippi is a result of no state supervision and little cooperation between county police. In most of these counties no police records are available, except poorly kept jail dockets which cannot be called records. They are only sufficient to collect the monthly board bill for the sheriff. Most records merely list names, charges, date confined and date released. No finger prints are kept in most places, and other important records for identification are absent."

It Won't Stretch . . .

But a low cost improvement loan at the Peoples Federal Savings & Loan will enable you to enlarge your home, turn a porch into an extra bedroom or add in some way to your comfort. And you can pay us back out of income. . . .

It doesn't cost a cent to look it over. Come in! . . .

Under the present system, law enforcement is often elusive and usually very expensive. Some sheriffs reportedly make as high as \$75,000 annually; the fee system adds to public costs; the loose connection between the local, county and state enforcement agencies adds up to lax and uncorrelated efforts; and, finally, the average citizen becomes confused and often discouraged when he sees so many open and flagrant violations of some laws, and strict enforcement of others.

Who is to blame for this out-moded system and what can be done to bring some order out of the worn jig-saw pattern now followed? History and time answer the first part of the question, since laws and the enforcement system, like the little daisy, "just grew." Also, people have a way of generally getting the type of law enforcement they want.

As to corrections, the Council has some specific recommendations. They are based partly on a study of modern, efficient law enforcement, partly on past experience, and partly on what elected law enforcement officials, and others, say should be done.

First, the office of sheriff and tax collector should be separated, and the sheriff be allowed to succeed himself. Approximately 90 per cent of the officials and individuals interviewed agreed to this. Since the present sheriff-tax collector can not succeed himself, there is little or no incentive for him to build a long-term effective program for his county. He should also be paid a set salary, since presently he has to collect his own salary and pay deputies out of fees derived mainly

from tax-collecting duties. This fee system for salaries tends to encourage the employment of a minimum number of employees, with first loyalty to fee-collecting rather than law enforcement.

Also, the short-term nature of the sheriff's position makes the temptation to "sell out" to illegal interests very strong. In the words of the report, "the sheriff's office in many counties becomes a rich political plum to be squeezed dry in four years and thrown to the next lucky aspirant."

Second, the offices of justices of the peace and constables should be eliminated and a system of county courts created. Over 80 per cent of those questioned agreed to this recommendation. Recently, the state bar association made a similar recommendation.

New Project Near Tupelo Will Boost Rural Telephones In Area To Over 1500

L. O. Parker, Tupelo Manager for Southern Bell (second from left) and J. H. Caldwell, Telephone Company engineer, watch as H. B. Goss, Rural Development Representative holds range rod locating first stake of new project near site of rural dial switching unit which will be part of final phase of one of the State's largest rural telephone developments.

TUPELO—The Southern Bell Telephone and Telegraph Company is engaged in staking lines for a big new rural telephone project just north of here. It will serve a wide farming area along Highway 45 North between here and Sallisville and along the Birmingham Ridge Road; together with customers in the town of Sallisville.

L. O. Parker, Tupelo Manager for the telephone company, states that the new project will provide modern rural dial telephone service for approximately 250 additional rural homes and business houses in the area.

All of these new telephones are to be connected to a modern rural dial switching unit, which the company plans to install in a new building to be erected near the intersection of Old Sallisville Road and the Birmingham Ridge Road.

The unit referred to is one of the type which the company has adapted to the growing needs for modern rural telephone service in farming areas such as those found in Mississippi. Sixteen units similar to these have been installed in the State during the past four years and more such installations are planned for the near future.

The new dial switching unit to be installed in connection with this project will be connected by trunk lines to the exchange in Tupelo and all of the telephones to be connected to it will be considered part of the Tupelo exchange.

According to Mr. Parker, this project is a phase of a major program of rural telephone development connected with the Tupelo exchange, which has been in progress for many years. When this work is finished the Tupelo exchange service area will have one of the State's most complete networks of rural telephone lines.

At the end of 1945, when rural telephone expansion was resumed, only 164 rural telephones were connected to the Tupelo exchange. Construction during the last 7 years has brought the total to over 1200. A new project at Plantersville, south of here, will add about 75 new rural customers and the 250 additional around Sallisville will bring the total number served by the Tupelo exchange to over 1500.

When the projects to be completed in the Sallisville area and at Plantersville are placed in service, the list of communities served by the Tupelo exchange will include: Old Sallisville Road area (including the town of Sallisville and the Birmingham Ridge Road Area), Plantersville, Bissell, Furrs, Sherman, Mooreville, Auburn, Chesterville, Skyline, Belden, Endville, Egsville, Richmond and Union.

The Sallisville project will require the placing of telephone equipment on approximately 1000 poles. The telephone company will erect about 200 of these and in addition will use about 800 poles of the Tombigbee River Electric Power Association by means of a joint-use rental agreement, with the power cooperative. Over 1300 miles of aerial wire and wire in cable will go into the new construction along with large quantities of cross arms, anchors and other equipment.

The Sallisville project is a major undertaking, but will be pushed as rapidly as possible. Its estimated cost of 125 thousand dollars will raise the total invested by Southern Bell, since 1945, in the rural exchange served by the Tupelo exchange to approximately the half-million dollar mark.

The State Health Officer Says

Port Gibson is the fourth Mississippi town to vote fluoridation of public water supplies. Miss Gladys Elych, supervisor of mouth health for the State Board of Health announced yesterday.

The ordinance for fluoridation just passed by the Port Gibson board of aldermen was the result of the combined efforts of dentists, physicians, citizens, and health department for prevention of dental decay among children on a community wide basis.

Meridian voted a similar public health measure last month and began fluoridating the city water yesterday. The first city in the state to add fluoride to the water supply was Columbus in August, 1951, followed by Forrest, six months later.

Fluoridation of public water supplies is being demanded by communities throughout the nation in increasing numbers. According to figures released by the

CARD OF THANKS
I wish to thank my friends and neighbors who helped me win first prize in the grand prize contest at Bay Mercantile.
Mrs. Conrad Sick.
